1. This action is responsive to the amendment filed on May 4, 2009.
2. Claims 5, 8-9, 11-16, 20 and 23 are pending. Claims 11-16 are withdrawn from consideration as being drawn to a nonelected invention.
3. Claims 5, 8-9, 20 and 23 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Terada et al. (WO 03/052045), hereinafter "Terada" for the reasons set forth in the previous office action.

#### ***Response to Arguments***

4. Applicants' arguments filed May 4, 2009 have been fully considered but they are not persuasive.

With respect to the rejection based upon Terada, Applicants argue that Terada teaches two separate components, a cleaning layer and a backing, and based on a fair reading of Terada, it does not teach a cleaning layer comprising a backing (or comprising polyimide). Applicants also argue that even though Terada discloses polyimide as an example for backing, there is no teaching or suggestion in Terada to employ a polyimide as a material for a cleaning layer.

The Examiner respectfully disagrees with the above argument because on page 24, lines 18-22, Terada teaches a backing for the cleaning layer, one of which is made of polyimide. Even though Terada discloses polyimide as a backing, this same polyimide may also read as the cleaning layer. Hence, the backing of Terada, which is

made up of polyimide, is construed to read on both the backing and cleaning layer of the present claims. The "cleaning layer" of Terada, then, would be another layer which is not excluded from the "comprising" language of the present claims. Hence, the obviousness rejection based upon Terada is maintained.

### ***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
